EDUCATION

Georgia institute of technology August 2025 - Present (Expected May 2027)

Major: Master of Industrial Design Atlanta, GA, USA

- GPA: 4.0/4.0

Pratt Institute August 2021 - May 2025

Major: Bachelor of Industrial Design Minor: Psychology, UI/UX Design New York, NY, USA

- Graduated with Highest Honors; Pratt Circle Award recipient; GPA: 3.87/4.0

PROFESSIONAL EXPERIENCE

Industrial Design Intern Hikvision | *Aftermarket Products – Commercial Vehicles, Automotive Electronics Division* Jun 2025 – Aug 2025

Rhino SolidWorks Keyshot Packaging Structure Design Hangzhou China

- Supported the exterior and structural design of commercial bus DVR products.
- Developed design directions based on brand language, product goals, and structural requirements.
- Created 3D models and renderings for product presentation, launch materials, and promotion.

Industrial Design Intern Xiaomi *Corporation* | *Industrial Design Department, Mobile Division* Jun 2024 – Aug 2024

Rhino SolidWorks Keyshot Packaging Structure Design Beijing China

- Supported the design development of Xiaomi Series 9 phone cases.
- Conducted market research, competitor analysis, concept exploration, and visual studies.
- Communicated with suppliers on samples and optimized design proposals based on feedback.

UI/UX Design Intern Kuaishou Technology | Client Experience and Design Innovation Team Jun 2023 – Aug 2023

Figma Information Architecture User Journey Mapping Cross-Department Collaboration Beijing China

- Supported the information architecture and interface design of a B2B customer service system.
- Improved system structure to enhance workflow efficiency and interface clarity.
- Redesigned return and refund flows for young users, improving confirmation and user protection.

RESEARCH & ACADEMIC EXPERIENCE

Graduate Research Assistant Health Technology and User Experience Lab | Georgia Institute of Technology Jun 2024 – Aug 2024

Honorable Mention: *ACM ASSETS 2026, "It'd Be an Extension of Who I Am": Speculating on DIY Prosthetic Making Across Diverse Resource Contexts* Atlanta, GA

Qualitative Research Thematic Analysis Accessible Design User Research

- Studied DIY prosthetics through a broader "use ecosystem," focusing on resources, maintenance, and equitable participation in long-term value.
- Interviewed 15 makers, users, families, and volunteers across five countries and analyzed qualitative data.
- Synthesized workshop insights into future concepts and created sketches exploring modularity, smart features, and ability extension.

Graduate Research Assistant Institute of People and Technology | Georgia Institute of Technology May 2026 – May 2027 (Expected)

Clinical Workflow Analysis Usability Evaluation Interactive Prototype Development Usability Evaluation Atlanta, GA

- Conducted iterative installation tests at the Aware Home and designed positioning templates, leveling tools, and instructions.
- Managed 3D printing, electronics assembly, and prototype validation, refining the toolkit to improve usability and consistency.

Graduate Teaching Assistant School of Industrial Design | Georgia Institute of Technology May 2026 – May 2027 (Expected)

Courses: User-Centered Design Methods; Digital Design Methods Atlanta, GA

- Prepared course materials, graded assignments, answered questions, and provided project feedback and guidance.
